

General Collection Guidelines

Failure to meet these guidelines may result in your container not being serviced:

- Place containers out by 6:00 a.m.
 - » Green waste cannot be bagged
- Place containers at edge of street (not on sidewalk)
 - » 5 feet apart from one another
 - » 6 feet away from cars and other stationary objects
- Lids must be closed
- Materials must fall freely from the containers when dumped
 - » Containers must not be overfilled
- All trash must be bagged to avoid spills during collection
- Cardboard cannot be left on the ground or against the container
 - » Cardboard recycling bins are placed at Joiner Park and the Twelve Bridges Library.

Visit www.lincolncalifornia.gov/recycling or call (916) 434-2450 for more information on:

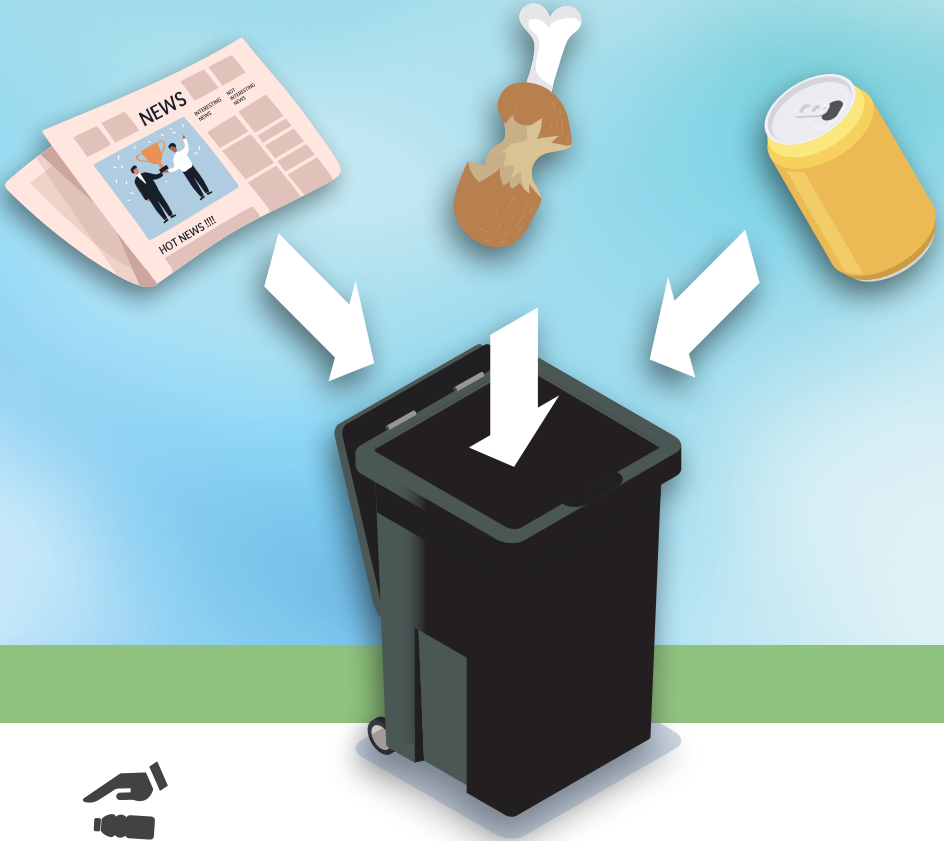

- Your service schedule
- Missed collection or extra pickup of garbage or green waste container (extra fees apply)
- Free curbside pickup appointments for Universal Waste (electronics, oil/filters, fats/oils/grease)
- Bagged leaf pickup in December

Put Waste in its Place!

Your Guide to Solid Waste Services

Hello, City of Lincoln resident!

We want to thank you for continuing to do your part for our community by reminding you that doing some simple practices can make a big difference. Check out our reminders and information below. In Lincoln, it's as easy as **One & Done** to *Put Waste in Its Place!*

Organics Recycling: It's the Law!

- Senate Bill 1383 (SB 1383) is a State law that was passed in 2016 which set targets to reduce California's organic waste from 2014 levels as follows: a 50% reduction by 2020 and a 75% reduction by 2025.
- Recycled organic waste is processed into compost and mulch after it's collected, which in turn reduces waste going to landfills and turning into greenhouse gas emissions.
- How is the City of Lincoln complying with SB 1383?
 - » One & Done – having residents continue to put organic waste into their garbage container that is used for trash, recycling, and food scraps.
 - » Materials in garbage containers are brought to the Materials Recovery Facility and properly sorted using state of the art equipment, machinery, magnet, and humans.
- To learn more about SB 1383 and organic waste, visit lincolnorganics.org/residential.

One & Done

Garbage Container

- **Organic Waste:** solid foods and scraps
- **Recyclables:** glass, plastic, aluminum, all paper products
- **All other trash EXCEPT:** batteries, toxic materials, and other hazardous waste. For more information on household hazardous waste, visit wpwma.ca.gov.
