

Proper Storage of Basketball Hoops

Basketball hoops must be stored on private property. Basketball hoops may not be stored in the public right-of-way, including streets and sidewalks. Basketball hoops in the street affect operations such as garbage collection and street sweeping, and can result in damage to the hoop, City equipment or vehicles legally parked in the street. Basketball hoops on the sidewalk restrict accessibility to those using assistive devices for walking or pushing strollers.

Have fun but please be considerate of others!
