Police Officer	Continuously Accepting Applications
Economic Development Manager	Recruitment in Progress
Maintenance Worker I/II	Recruitment in Progress
City Engineer	Accepting Applications
Public Works Director	Accepting Applications
Construction Inspector I/II	Accepting Applications
Associate/Senior Civil Engineer	Accepting Applications

Retired Law Enforcement Officers Group of Lincoln: The Retired Law Enforcement Officers Group of Lincoln and their coordinator (Chuck Schmidt) purchased four commercial-grade pieces of gym equipment for the employees of the Lincoln Police Department, which were dedicated on November 9th. A climate-controlled structure is being built within the Police Department's warehouse that will include a fitness room. This gym will be dedicated to Lincoln Police Officer Les Schellbach who was killed in line of duty on December 12, 1971.

Regional Task Force Meeting: On October 27th, Lieutenant Alves presented the swastika hate incident at the regional Hate Crime Task Force meeting. The meeting was held by the US Attorney's office and the FBI. Attendees included numerous civic leaders from Northern and Central California and the Bay Area.

October Building Permits Issued: The Community Development Department staff processed and issued a total of 290 building permits in the month of October.

La Quinta Hotel: The City hosted a preconstruction meeting with the site contractor on November 9th in anticipation of having an approved grading permit in the coming week. Contractor's proposed sequence includes construction of Red Rock Road from the intersection of Colonnade Drive & Galewind Drive to the intersection with Fieldstone Drive as the first order of work, to be followed by the onsite grading and improvement of the La Quinta Hotel parcel.

Leaf Pickup: The City began its annual downtown leaf collection program on Monday, November 2nd. It will run through the last weekday in December.

The City website has further information on leaf pickup locations and pickup days:

<http://www.lincolncity.gov/Home/Components/News/News/2716/73?backlist=%2f>

Capital Improvement Projects: All Capital Improvement Projects will be updated on the attached CIP Tracker Report on at least a monthly basis. Individual Inside Lincoln updates will only be provided for a select group of high-profile projects as needed.

CIP Tracker and its associated map are available on the City's website at the following location:

<http://www.lincolncity.gov/city-hall/departments-divisions/engineering/cip-projects>

Looking Forward

(These items occur after November 13, 2020)

7th Annual Turkey Drive: The Lincoln Fire Department will host their 7th annual turkey drive at Station 34 (126 Joiner Parkway) on Thursday, November 19th between 2:00 PM and 8:00 PM. COVID precautions will be in place. Our local food banks need your help more than ever this year so please consider helping out! See attachment flyer.

East Side Sewer, Water and Street Rehabilitation: The contractor has completed the road reconstruction for the East Side Project and all utilities have been raised to grade. The placement of hot mix asphalt was completed the Friday before Halloween. The contractor is currently completing the last of the punch list items and a final walkthrough is scheduled for next week. Notice of Completion is anticipated for January 2021.

East Avenue Water Replacement: The contractor will be complete with the installation of the water main on East Avenue between McBean Park Drive and 7th Street this week. The contractor will then fall back to McBean Park Drive and begin installing the new water services and fire hydrants off the new main, which is anticipated to take approximately two weeks. Once the services and hydrants are installed the contractor will continue installing the new water main between 7th Street and E 9th Street. Construction is anticipated to continue through March 2021.

Silverspur Sewer Lift Station: The contractor has completed the final paving restoration and is substantially complete with the project. The motor control panel provided by Tesco encountered a few issues during startup that Tesco is continuing to work through. Tesco is currently scheduled to be back onsite November 16th to complete several the outstanding items, which will allow the bypass pump to be removed from the street. Staff is still awaiting an estimated installation date for the SCADA controls for the lift station. Once the SCADA controls are in place and have been tested, the project will move forward with Notice of Completion.

Markham Ravine Channel Restoration: The Markham Ravine Tributary Maintenance project includes the removal of 0.87 acres of vegetation from approximately 1000 feet of the ravine along the channel and banks, as well as restore the flow line grades of channel after years of sediment buildup. This buildup of sediment over time has resulted in flooding and drainage issues in the surrounding neighborhoods. The contractor is currently in process of removing the vegetation from the foot bridge near Schellbach Drive heading east. The vegetation removal will be completed this season, however, due to the time of year and the approaching wet weather the channel grading will be completed next summer when the channel can be drained and dried out.

Lincoln Meadows: Contractor has commenced installation of SWPPP measures and mass grading the site on Virginiatown Road just west of Hungry Hollow. The improvement plans are under City review, as such the current scope of work includes grading only which is expected to go through the end of November.
