Included you will find the paperwork necessary to reserve City athletic fields for 2025. Thank you in advance for taking the time to complete the annual paperwork. It is important for the Recreation Department to have this updated paperwork on file so that we may have a better understanding of your needs as well as current contact information. In addition to the Organization Information Form and the Athletic Facility User Request Form, it is required that we have a current copy of your Certificate of Insurance that names the City of Lincoln as additionally insured. If your policy has already expired or will expire at the beginning of 2025, please make sure a current certificate is received in our office ASAP. For organizations with less than 100 participants who wish to petition for resident status, it will also be necessary to include with your paperwork a current roster of participants. A template for how it should be submitted and the information required is included. Or simply complete the roster provided. The rosters will be verified with various national governing bodies and used to verify residency percentages in order to determine allocation priorities and rental fees.

NOTE: All requested documents and forms must be current and on file and fees up to date before any field use by your organization will be approved and scheduled in the facility calendar for 2025.

INCLEMENT WEATHER POLICY

City athletic fields have been designed and are maintained for the enjoyment and use of Lincoln residents. The purpose of this policy is to guide the use of City athletic fields, to prevent injuries and damage to the playing surface brought upon by inclement weather and/or unsafe playing conditions. An effective field maintenance program is essential for safe, quality fields and sports complexes. User groups are asked to help us by accepting and adhering to these rules. Groups who use the City athletic facilities are expected to assist in protecting their participants and fields during periods of rain, inclement weather, or any other time playability is in question.

Policy

The City of Lincoln reserves the right to cancel or suspend field use permits when field conditions could result in injury to players or cause damage to the fields. Permits may also be cancelled when the health and safety of participants are threatened due to impending conditions, including but not limited to, heavy rains, smog alerts or pesticide application.

Procedure for Determining Field Playability & Informing the Public

When there is inclement weather on a normal business day, the City's Public Works maintenance staff will assess the playability of the field to determine field playability. The designated City representative shall have the authority to close the field and this decision is not negotiable. If a field closure can be determined by 3pm, then City staff will notify affected user groups of field closures via email/text. If status cannot be determined before 3pm or if it's not a normal business day, then fields shall be inspected by the user group at time of use to determine playability. In this case, the user group must employ the playability criteria used by City staff.

Baseball and Softball Infields

Infields will be deemed unsafe and unplayable when any of the following conditions are present:

- There is standing water within the base paths, batters box or pitching area.
- Your feet slip as you walk through any area of the infield.
- The depth of your footprint is greater than 1/4 inch on any area of the infield.

Soccer Fields and Baseball/Softball Outfields

Turf areas will be deemed unsafe and unplayable when any of the following are present:

- There is standing water within the majority of a single playing position.
- Your feet suction to the ground as you walk within the majority of a single playing position.
- Your footprints fill with water in the majority of a single playing position.
- Grass can be easily dislodged from the fields during play.
