Damage Cost: \$ _____ # at Return: _____

IMPORTANT NOTICE REGARDING HYDRANT METER READS:

It is the vendors responsibility to relay their hydrant read to the City of Lincoln. In order to make this process easier for our customers, the City has set up an e-mail address where these reads can be sent: hydrantreads@lincolnca.gov. When supplying a read please ensure that you provide the name of your organization, the meter number, and all eight numbers of the hydrant read (including zeros). The City may require the vendor to return the meter to the City to verify the meter reading.

The City will accept reads anytime between the 15th and 25th of each month. Failure to provide a reading will result in a service fee of \$47.40 for additional staff time associated with reading the hydrant meter and processing the hydrant billing. This charge will be in addition to the monthly rental fee of \$50.00. The monthly rental fee will continue to be charged until the meter is returned to the City of Lincoln. The charge for each 1,000 gallons of construction water use shall be \$4.74.

The vendor shall be responsible for all fees and charges incurred while the meter is in their possession, including costs resulting from damage, misuse, or loss.

Please note: The City of Lincoln is not responsible for vendor misreads. The vendor will be accountable for all unpaid water usage calculated from the beginning read to the final read when the meter is returned.

If you have any questions, please e-mail hydrantreads@lincolnca.gov or call 916-434-2430.

By signing below I acknowledge that I must provide a read to the City of Lincoln via e-mail between the 15th and 25th of each month and that I am responsible for the payment of all water usage from beginning read to the final read when the meter is returned.
