

DATE: January 30, 2026  
TO: Chief Matt Alves  
FROM: Sergeant Scott Goin  
SUBJECT: Biannual Flock Audit

---

Chief Alves,

Pursuant to Lincoln Police Department Policy 460, a biannual audit was conducted concerning browsing inquiries made by department employees within the Flock ALPR system. The audit consisted of 15 randomly selected detection browsing inquiries.

**Findings:**

All 15 ALPR inquiries reviewed were determined to serve a legitimate law enforcement purpose and contained information related to criminal investigations.

The audit did reveal that users on two occasions failed to include a case or incident number when conducting searches. However, the officer(s) did include the offense type and the reason for each search.

**Corrective Actions:**

To address this issue, an email was sent to department employees reminding them of the policies and procedures for conducting ALPR inquiries, including the requirement to document the associated case or incident number.

Respectfully,

Sergeant Scott Goin #5
